HÜPPE Sphere Pure with shelf and towel rail

Available for delivery from September 2025

Innovation
Made in
Germany

The progressive new development HÜPPE Sphere is timelessly elegant. With HÜPPE Sphere, the shower area becomes an integral and illuminated interior design element in the architecture of the home, which also emphasises the growing importance of the bathroom as a living space

HÜPPE

Technical data sheet

HÜPPE Sphere Pure with shelf and towel rail

HÜPPE Sphere Pure with shelf and towel rail

HÜPPE Sphere Pure with crossbar, shelf and towel rail. The horizontal glass connection profile enables two separate glass panes for easy transport and installation. The glass connecting profile is equipped with a shelf on the inside and a towel rail on the outside. The glass profiles are equipped with a total adjustment range of 80 mm, which enables installation with virtually no measuring required.

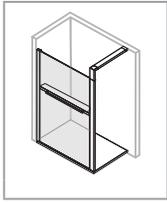

Available with or without LED lighting, integrated flush into the crossbar and wall profile. The LED lighting can be switched on and off and adjusted to the desired lighting effect and brightness using the elegant, integrated control panel. The entire LED lighting and control system has an IP65 protection rating and is protected against water

Service

Ten years after-sales and 30 years premium guarantee

HÜPPE products naturally have the legal warranty period of two years. We also offer an availability guarantee: an identical version of every wear part can be repurchased – for a period of ten years. In the HÜPPE online shop, you will find exactly the spare part you need – whether with or without an ID number.

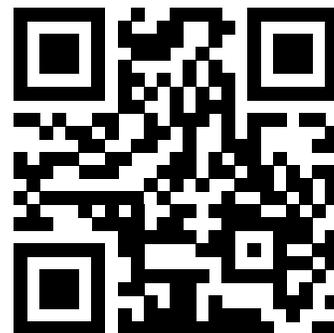

Further information

You will find lots of further information about our products at www.hueppe.com. In addition, numerous pictures, brochures, assembly instructions, spare parts overviews and much more are available in our media database at media.hueppe.com.
